Welcome to your new health home.

The Montana Health Centers have joined the Premise Health family.

While you may see some updates, your care team and current services aren't changing. You'll still receive the same quality care from the providers you know and trust, with the added benefit of a new and improved patient portal called [My Premise Health](#).

Your new portal will function much like your CareHere portal with the ability to schedule appointments, view lab results, conduct virtual visits and more, but with a simplified scheduling process, enhanced functionality and a new electronic medical record (EMR) platform called Epic. The platform makes your medical records easily shared and available to any specialists or providers you visit, ensuring you always receive the best and most comprehensive care possible.

Visit members.premisehealth.com/carehere to learn more about My Premise Health and what the transition means for you.

Two easy ways to register for your My Premise Health account:

1

Self-validate your account directly online at mypremisehealth.com or on the My Premise Health app by entering your full name, date of birth and last four digits of your social security number (SSN). Simply click the "Sign up now" button under "New User" to get started.

2

Call (855) 200-6822 or visit a Montana Health Center to receive a personalized link, via email or text message, that allows you to register.
